Optum Object Store integration (work-in-progress)

```
curl -vv -k  \
-H "Host: ${endpoint}/${bucket}" \
-H "Date: ${dateValue}" \
-H "Content-Type: ${contentType}" \
-H "Authorization: AWS ${s3KeyID}:${signature}" \
-X PUT https://${endpoint}/${bucket}
```

Load Balanced endpoints: (for requests on or after June 1, 2018)

- for DMZ (internet tools zone) accounts: s3api-dmz.uhc.com
- for Core Network (intranet zone) account: s3api-core.uhc.com
